Summary

Backend Developer with 4+ years of experience building scalable REST APIs and web applications using Laravel and Node.js. Proven track record in e-commerce platforms, payment gateway integrations, and database optimization – reducing API response time by 75% on high-traffic production systems.

- Experience
- Owebest Technologies Pvt. Ltd.

Full-Stack Laravel Developer

<https://www.owebest.com/>

Apr 2022 – Sep 2024

Jaipur, Rajasthan, India

 - Architected 5+ REST APIs for e-commerce platforms handling 10k+ international e-commerce and marketplace platforms supporting 10k+ concurrent users.
 - Integrated Basket.js and LimeFirst using Laravel, MySQL, and JavaScript to streamline cart management and product discovery workflows.
 - Implemented secure multi-region payment gateway integrations including PayPal, CashFree, and MyFatoorah, improving transaction reliability and checkout performance.
 - Optimized MySQL database queries and indexing strategies, reducing API response time by 75% (800ms to 200ms) on high-traffic endpoints.
 - Developed OAuth 2.0 authentication with Google and Facebook social login integration.
 - Built real-time chat and notification systems using Laravel Echo and WebSockets.
 - Implemented Git-based CI/CD workflows on Linux servers, cutting deployment time by 40% with zero-downtime releases
 - Collaborated with frontend and QA teams to deliver scalable, production-ready applications within sprint timelines.
- Prerna Trimurty Infotech Pvt. Ltd.

Full-Stack Laravel Developer

<https://www.ptiwebtech.com/>

Oct 2024 – Apr 2025

Jaipur, Rajasthan, India

 - Developed and maintained custom web applications using PHP, Laravel, CodeIgniter, and MySQL.
 - Built RESTful APIs and backend modules for e-commerce and business-service platforms.
 - Implemented responsive frontend functionality using HTML, CSS, Bootstrap, jQuery, and JavaScript.
 - Optimized database queries and backend workflows to improve application performance.
 - Integrated third-party APIs, authentication systems, and payment gateway features.
 - Collaborated with clients and team members for feature development, bug fixing, and deployment support.

- Tallento.ai

Backend Developer | CodeIgniter & Node.js

<https://tallento.ai/>

May 2025 – Present

Jaipur, Rajasthan, India

 - Developing backend systems for an AI-driven hiring platform connecting employers and job seekers across multiple industries.
 - Architecting scalable APIs and real-time intelligent screening modules using Node.js and CodeIgniter.
 - Building interview scheduling and ML-based candidate ranking systems to improve recruitment efficiency.
 - Integrating NoSQL databases and cloud-based infrastructure to support high-volume job portal operations.
 - Contributing to the FPS JOBS AI engine to automate recruitment workflows, improve candidate matching accuracy, and reduce time-to-hire.
 - Collaborating with product and engineering teams to deliver scalable hiring solutions for enterprise clients.

- Projects
- HE Holding – Corporate Website

<https://www.heholding.com/>

Apr 2022 – Oct 2022

Designed and implemented a corporate website for a UAE-based holding company to showcase business sectors, investments, leadership, and corporate services with a modern and professional UI.

Laravel, MySQL, HTML5, CSS3, Bootstrap, JavaScript, jQuery
- Basket.qa – Online Grocery & E-commerce

<https://www-demo.basket.qa/>

Jan 2023 – Aug 2024

Built a scalable online grocery and eCommerce platform with product management, cart system, secure checkout, and order management features for a seamless shopping experience.

Laravel, MySQL, REST APIs, MyFatoorah, HTML5, CSS3, Bootstrap, JavaScript, jQuery
- LittleFloh – E-commerce Marketplace

<https://www.littlefloh.de/>

Oct 2022 – Aug 2023

Built a pre-owned kids marketplace with product listings, category filters, role-based access, Twilio chat integration, and social login functionality.

Laravel, MySQL, Twilio, Social Login, HTML5, CSS3, Bootstrap, JavaScript, jQuery
- ITBizHub – Business Services Platform

<https://www.itbizhub.com/>

Jan 2025 – Apr 2025

Business services platform developed to connect businesses with digital solutions and IT services, featuring company profiles, service management, client engagement, and a professional user-friendly interface for business growth and networking.

MySQL, REST APIs, Laravel, HTML5, CSS3, Bootstrap, JavaScript, jQuery

- FPS JOBS – AI Powered Hiring Engine

<https://tallento.ai/>

May 2025 – Present

AI-powered hiring and recruitment platform developed to connect job seekers with employers through intelligent job matching, resume screening, interview scheduling, and recruitment management for education, IT, and professional sectors across India.

CodeIgniter, Node.js, NoSQL, AI APIs, REST APIs, HTML5, CSS3, Bootstrap, JavaScript, jQuery

- Education
- Apex Institute of Management and Science, Jaipur

July 2018 – May 2021

Rajasthan University

Bachelor of Computer Applications (BCA)

- Skills
- Backend

PHP, Laravel, CodeIgniter, Node.js, REST API Development, MVC Architecture, JWT Authentication, API Security
- Frontend

React.js, JavaScript, HTML5, CSS3, Bootstrap, jQuery
- Database

MySQL, Redis, Database Optimization
- Integrations & Services

Third-Party API Integration, Firebase, WebSocket, Social Login (Google, Facebook), Twilio SMS & Calling, Resume Parsing, ATS Integration, Chatbot Integration
- Payment Gateways

PayPal, Razorpay, Cashfree, MyFatoorah
- Tools & DevOps

Git, GitHub, Linux, Postman, CI/CD, Deployment & Production Support

- Interests
- Analytical Thinking & Problem Solving
- Data Structures & Algorithms
- Continuous Learning in Technology
- Programming & Development

- Certifications
- Core Java Certification

FirstTech

Completed: 2021

OOP, Collections, Exception Handling, Java Fundamentals

- Key Achievements
- Payment Gateway Integration

Integrated 4 international payment gateways across scalable eCommerce platforms serving users in Qatar, Germany, and India
- Database Optimization

Improved MySQL API response time by 75% (800ms → 200ms) on high-traffic production endpoints
- AI-Powered Recruitment Solutions

Developed and optimized AI-powered hiring and candidate ranking modules for recruitment platforms across multiple industries
